### **Preface**

Employer: Eagle Lake Ford, LLC Limited Liability Co

Of all the strategies available for an employer to provide unique benefits for selected executives, a bonus used to pay the premium for an executive-owned cash value life insurance policy is highly rewarding yet very simple to implement and administer.

There are two categories of this benefit plan:

#### **Plans with Unrestricted Access**

This executive owns the policy and has no restriction on access to plan values.

#### **Plans with Deferred Access**

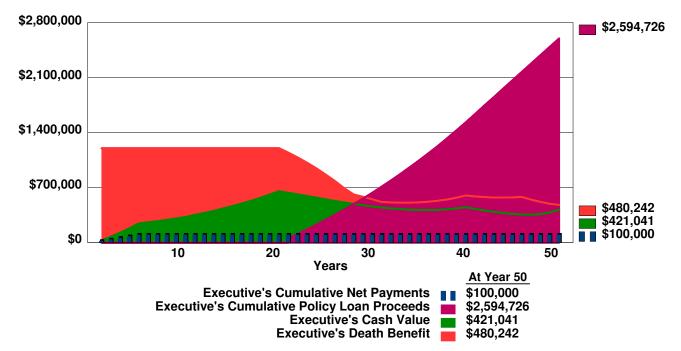

This plan includes an "endorsement of ownership rights" in which the executive agrees to make no loans or withdrawals on the policy without the employer's consent or until a specific date or event occurs -- such as retirement.

This variation also has a feature known as a "Controlled Bonus" in which the executive must repay the bonus should termination of employment occur prior to a certain date or event.

These plans have the following features:

- 1. Employer can pick and choose participants;
- 2. No regulatory approval required;
- 3. Employer can deduct its funding costs;
- 4. Executive has tax free access to cash values through policy loans (the Deferred Access variation limits this feature);
- 5. Income tax free death benefits for the executive's family;
- 6. Any size business can establish a plan;
- 7. Types of business entities:
  - C corporations and tax exempt organizations: The plan is suitable for any executive.
  - S corporations, LLCs, and Partnerships: The plan is suitable for any non-owner executive.

This compensation plan has a considerable amount of financial leverage that is particularly evident in the accompanying presentation.

This graphic assumes the non-guaranteed values shown continue in all years. This is not likely, and actual results may be more or less favorable.

Repayment of the Bonus

Insured: Billy Mayfield

Employer: Eagle Lake Ford, LLC

Limited Liability Co

### **Background**

A Controlled Executive Bonus Plan is a fringe benefit in which an executive is paid a recurring taxable bonus which is used to purchase a life insurance policy with an emphasis on maximizing cash value accumulation. Subject to the terms of a separate Employment Agreement, the executive is required to repay the bonus under certain circumstances such as voluntary termination of employment by the executive prior to a certain date or event described in the Agreement or termination by the employer for cause.

### Question

Can the executive deduct the repayment if it occurs?

#### **Comments**

The executive may be able to deduct the repayment under IRC Sec. 1341 (computation of tax where taxpayer restores an amount held under a claim of right). If the executive's bonus repayment is not deductible, and a policy loan is used to provide all or part of the funds for the bonus repayment, there is meaningful tax leverage available as tax free cash flow will have been accessed from the policy's tax deferred assets as the source of funds for repayment.

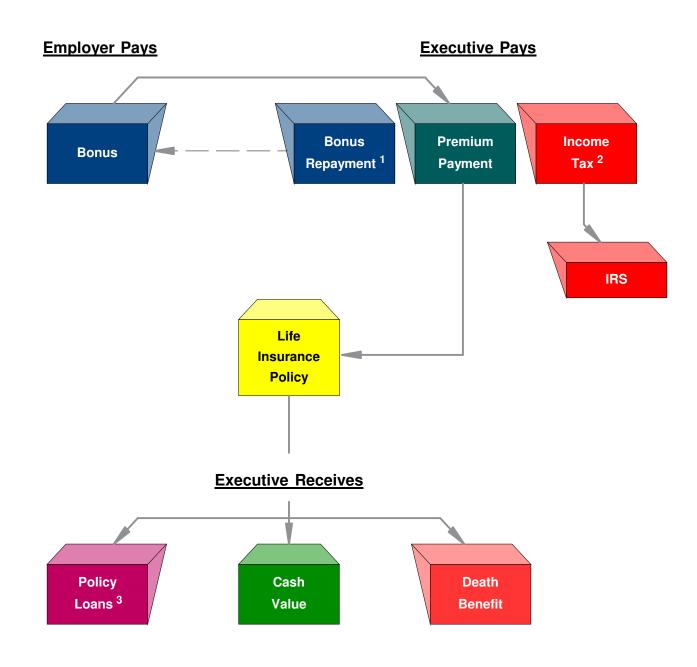

The employer must recognize any amount repaid as income under IRC Sec. 61.

**Important Note:** This information is for educational purposes only. In all cases, the approval of a client's legal and tax advisers must be secured regarding the implementation or modification of any planning technique as well as the applicability and consequences of new cases, rulings, or legislation upon existing or impending plans.

Insured: Billy Mayfield

### Matching Values

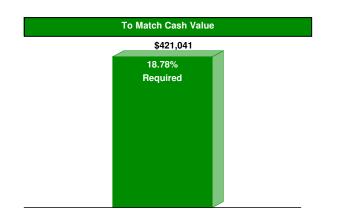

Employer: Eagle Lake Ford, LLC Limited Liability Co

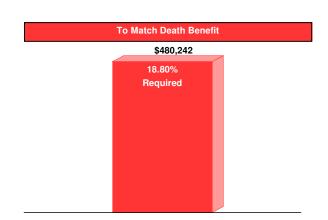

Executive's Tax Bracket 40.00% Indexed UL Interest Rate 7.50% Initial Payment 50,000 Initial Death Benefit 1,200,000

Gross Interest Rate Required on
a Hypothetical Taxable Investment
to Match the Executive's share of Indexed Universal Life Policy Values over 50 Years
(Executive's Net Payments Used as the Hypothetical Investment)

Hypothetical Taxable Alternative

To match Cash Value of: \$421,041 To match Death Benefit of: \$480,242 18.78% 18.80%

#### **Income Tax Considerations**

- 1. Hypothetical Taxable Investment: Interest is taxed as earned.
- 2. Indexed Universal Life:
  - a. Death Benefit including available cash value component is income tax free.
  - b. Loans are income tax free as long as the policy is kept in force.
  - c. Withdrawals and other non-loan policy cash flow up to cost basis (not in violation of IRC Section 7702) are income tax free as a return of premium.
  - d. Cash values shown assume most favorable combination of b and/or c.

\*This illustration assumes the nonguaranteed values shown continue in all years. This is not likely, and actual results may be more or less favorable. This illustration is not valid unless accompanied by a basic illustration from the issuing life insurance company.
