Comparison of Current Plan vs. Add Premium Financing

Testing Financial Tolerance for Premium Financing

Preface

The accompanying report contains an analysis of your current financial plan compared to the addition of a life insurance policy funded by premium financing.

The material examines the following two situations:

Strategy 1 reflects your current financial plan.

Strategy 2 illustrates the results of acquiring a life insurance policy owned by a trust formed on behalf of your family that is funded using premium financing secured from an independent lender.

The accompanying report is presented in three parts, as follows:

1. Comparison of the results from each Strategy;
2. Details of Strategy 1;
3. Details of Strategy 2.

Although all the material should be reviewed, you may find the most valuable information is in the Comparison section. The most important individual reports are the Cash Flow Analysis, Hypothetical Net Worth Illustration, and Wealth Transfer Summary. The balance of the material provides backup for the overall analysis.

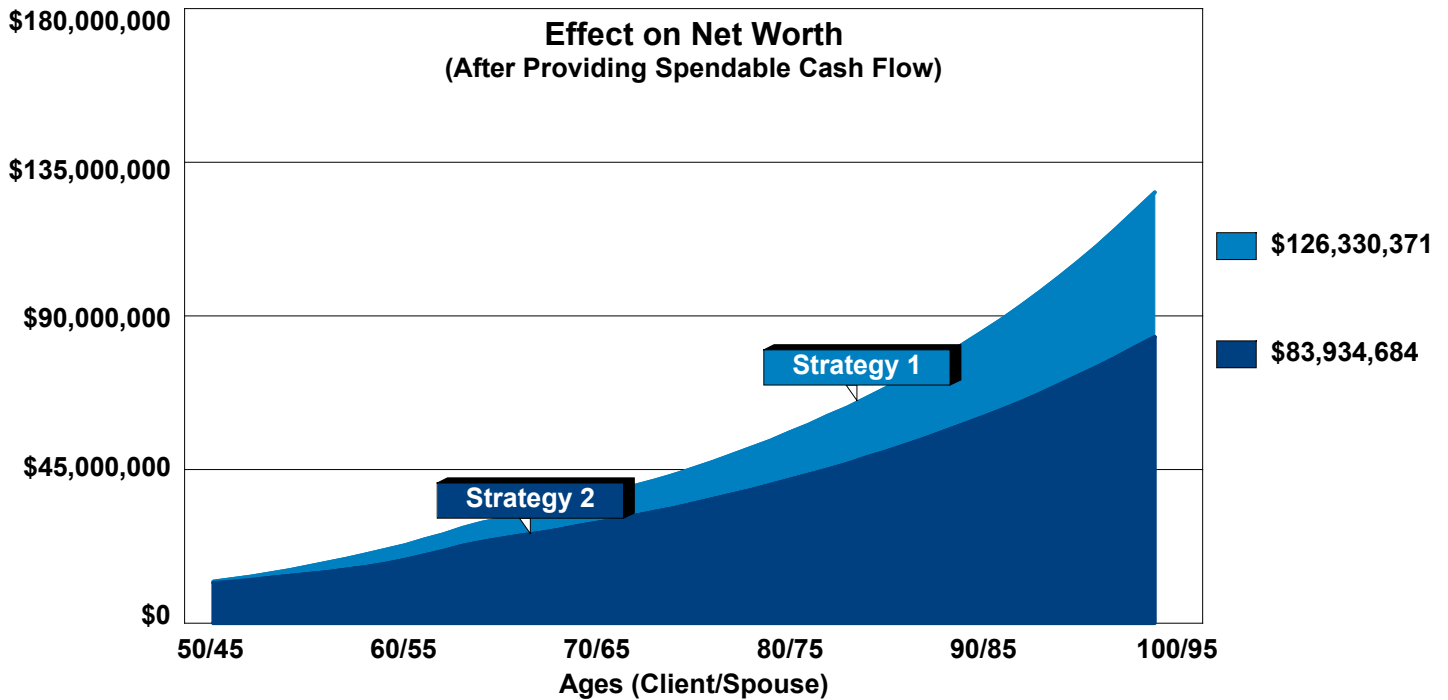

The material presented should provide a sound basis for evaluating your current situation as well as the effect that this planning strategy has on preservation of your family's wealth.
